Grades 9 to 12	\$120/170/200/230
Number of Children	1 / 2 / 3 / 4+

## Food Service Prices Fiscal Year 2021 - 2022 (Approved 5-10-2021)

The USDA, Bureau of Food and Nutrition & Transportation Services, a division of the Iowa Department of Education and the school district continue to upgrade standards and requirements for the National School Breakfast, Lunch and Summer Food Service Meal Programs. The school district does not receive government subsidies for adult meals, snack milk and/or ala carte items served even though these sales are regulated by the federal and state agencies. The combination of these factors affects the cost of operation. The food and nutrition department cannot be a financial liability to the general operating fund. Therefore, we are recommending the following meal pricing schedule to help support the program. The pricing is a result of federal requirements regarding equity in school meal pricing, which is part of the Child Nutrition Reauthorization, Healthy Hunger-Free Kids Act of 2010 and an attempt to cover operational costs.

Students may qualify for reduced or free meals based upon a completed Eligibility Meal Application, which must be processed each school year.
